This game is a bit fun and funny, as you try and fail repeatedly to control flight with nothing but left-right jet thrusters. Unfortunately, I experienced a great deal of glitchiness in both the handling and landing, as well as the game menus and campaigns. It crashed a few times. Kudos for a decent effort at something way different, but a reluctant thumbs down overall--the game lacks some needed tightening and polishing.. This is the game where you actually understand how hard it is to

use a jetpack.. there is a bug but i still like it. there is a bug but i still like it. Great game its really fun and time killer, Please add more missions coz i love it.
